There are views and then there are views and the outlook that you are afforded at 155 Harris Lane is pretty hard to beat. Situated at the highest vantage point on this 10 acre block, only 5 minutes from Porepunkah and 10 minutes from Bright, the house is facing north and offers views back out the Buckland Valley towards Porepunkah and also to its west, taking in The Gorge with its Mount Buffalo backdrop.

All of the living space within the double brick home is located to the front, to take in that fabulous outlook, with more than ample kitchen and dining area as well as lounge room with raked timber ceiling, adding further character to the already character filled home.

The kitchen itself has been recently remodelled and offers a walk-in pantry, twin dish drawer dishwasher, electric cooking as well as a Rayburn slow combustion oven.
