

90 Mill Road HARRIETVILLE VIC

4  2  2 

Sitting in the most beautiful terraced setting is this stunning alpine style home of some 30 squares of mud brick and character timbers. With features that are far too numerous to mention.... but include 4 large bedrooms plus mezzanine office that overlooks the lounge room while allowing elevated views to the stunning surrounds. The central stone fireplace that any stonemason would be proud of dominates the large open plan living lounge & kitchen zone is something to behold. Enormous timbers that are now so very hard to come by, hold up the high pitched ceiling and allow the open feel that extends through to the many cedar windows that let an abundance of light and greenery meander indoors.

Parents will be pleased with its king size master bedroom that looks down upon the lower grounds and the Ovens River, that has a walk in robe and ensuite with double

Land Size : 5058.57 sqm
