

10 Blue Wren Close Bright VIC

3 2 2

Arriving at the end of Blue Wren Close you could be forgiven for driving slowly around the end of the cul de sac without much thought and heading back out again. However if you stop and take a look at number 10, you start to get a feel that with its angled lines, cleverly screened entrance and natural surrounds rising up behind the building itself, that there is more on offer behind its front door.

Well I am here to tell you that it certainly doesn't fail to deliver and that upon entering its central living space you are greeted with a variety of ceiling lines including a raked section leading to high set windows that allow our autumn sunshine and an abundance of natural light to stream into the living space, naturally warming you instantly but carefully designed to keep out the summer sun.

Building Size : 132.5 sqm
Land Size : 1054 sqm
